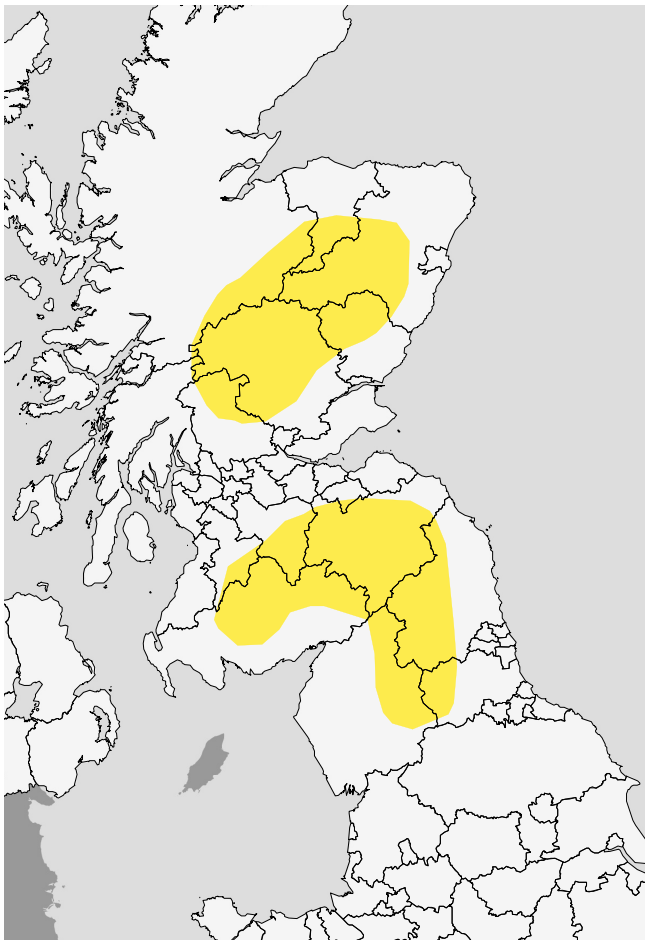
Yellow warning
Snow

Between
00:00 Wed 3 Feb 2021 and
23:59 Wed 3 Feb 2021



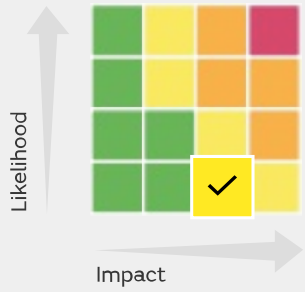
Periods of snow will continue to affect the region, leading to disruption to travel in places, especially on routes over high ground.

What to expect

- There is a small chance of travel delays on roads with some stranded vehicles and passengers
- There is a slight chance that some rural communities could become cut off
- There is a small chance that power cuts will occur and other services, such as mobile phone coverage, may be affected

Further details

Further spells of snow, heavy at times, will continue to affect parts of northern England and Scotland during Wednesday. Snow is most likely to fall on higher ground, mainly above 200 to 300 metres. Significant accumulations of 10 to 20 cm are possible, perhaps as much as 40 cm across the Grampians. This amount of snow could bring disruption to travel across trans-Pennines routes and the higher roads across the Southern Uplands and Grampians.



Very low likelihood of medium impacts

Issued at 10:46 Sat 30 Jan, 2021
